

## Project Design Phase-II

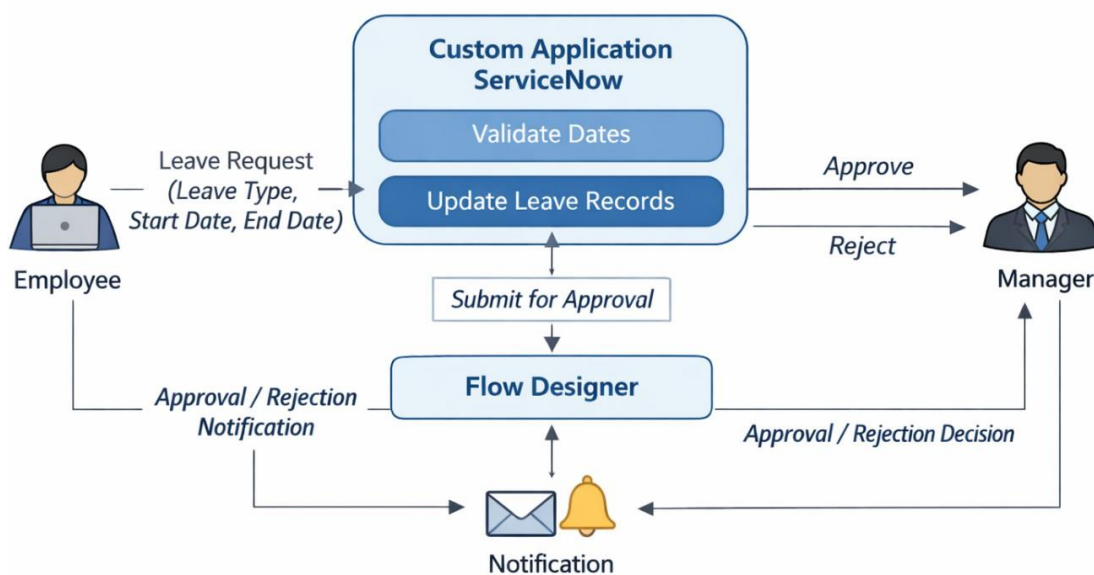

### Data Flow Diagram & User Stories

|               |                       |
|---------------|-----------------------|
| Date          | 30 June 2026          |
| Roll Number   | 23A51A4285            |
| Project Name  | Leave Approval System |
| Maximum Marks | 4 Marks               |

#### Data Flow Diagram:

The Leave Approval System automates the process of managing employee leave requests through ServiceNow. Employees submit leave details such as type, start date, and end date. The system validates the dates to prevent errors and routes the request to the manager using Flow Designer. The manager reviews and either approves or rejects the request, after which the system sends a notification to the employee. This workflow ensures accuracy, transparency, and efficiency in leave management.

#### User Stories:

| User Type     | Functional Requirement (Epic) | User Story Number | User Story / Task                                                                 | Acceptance Criteria                                              | Priority | Release  |
|---------------|-------------------------------|-------------------|-----------------------------------------------------------------------------------|------------------------------------------------------------------|----------|----------|
| Employee      | Leave Application             | USN-1             | As an employee, I can apply for leave by selecting leave type and dates.          | Leave request is submitted and visible in my dashboard.          | High     | Sprint-1 |
| Employee      | Validation                    | USN-2             | As an employee, I cannot submit leave if the end date is earlier than start date. | Error message displayed, request not submitted.                  | High     | Sprint-1 |
| Manager       | Approval Workflow             | USN-3             | As a manager, I can approve or reject leave requests via ServiceNow.              | Approval/rejection recorded and reflected in employee dashboard. | High     | Sprint-1 |
| Employee      | Notifications                 | USN-4             | As an employee, I receive notification when my leave is approved or rejected.     | Notification appears in system/email.                            | Medium   | Sprint-2 |
| Administrator | Reporting                     | USN-5             | As an admin, I can view reports of leave requests and approvals.                  | Reports generated with filters (date, employee, status).         | Low      | Sprint-3 |
